

Science Project for Grade 8

The challenge for you is to make a musical instrument that can play different tunes.

@ Film a pipe that can burn fiber Design one of those items.

There is no need to design a musical instrument you see there.

It is sufficient to produce a variety of tunes .

Practice playing some of those tunes.

@ Briefly describe how you planned your items.

@ Take a step-by-step photo of how you created ..

@Read more to play the rhythm of the product.
